

SULLAMUSSALAM
SCIENCE COLLEGE

Two Day Research Workshop

Research Writing & Scholarly Publishing

24-25 July 2026
(Friday & Saturday)

Organized by
PG & Research Department of
Computer Science
Sullamussalam Science College
(Autonomous), Areekode

ABOUT COLLEGE

Sullamussalam Science College is a first grade aided college affiliated to University of Calicut, approved by University Grants Commission and accredited by the NAAC with A grade. The College is located on the picturesque hills of Perumparamba on the banks of the river Chaliyar, a kilometer away from Areacode town in Malappuram District. The college is run by Muslim Educational Association, an educational organization formed in 1994 under the auspices of Jamiyyathul Mujahideen Sangam, one of the pioneer reformist muslim educational movements in Malabar. The college was founded with the objective of imparting quality education to backward minority communities in rural areas of Malabar. Thanks to the Almighty, it has so far triumphed in its objectives, despite various constraints. Now on a stable footing, the college is venturing into new avenues of higher education. Policies and Special features The management believes in Islamic values and in the true spirit of education and thus totally against the commercialization of education. No capitation fee for staff appointments and student admissions Consistently excellent academic records Many prestigious University ranks No politics based elections The campus is free from strikes Exemplary student democratic activities Many clubs and forums meant for all-round development of students

ABOUT DEPARTMENT

The Department has been operational since the college's inception in 1995. It is one of the largest computer science departments under the University of Calicut. The postgraduate course, which started in 2001 with 10 seats, boasts a nearly perfect pass rate every year. Among the nine faculty members, four hold Ph.D. degrees, while the others are actively pursuing their research.

The department has produced high-quality professionals who hold significant positions in the Information Technology industry both in India and abroad. Our distinguished alumni excel in key roles within various reputable organizations, and many of our students are engaged in research at prestigious universities and institutions.

We conduct national seminars almost every year, inviting eminent resource persons from both educational and industrial fields. The department was recognized as a Research Centre during the 2018-19 academic year. To foster research and innovation in computing, we have established a dedicated research room with a lab under the Department of Computer Science.

In addition to academic courses and soft skills training, we place a strong emphasis on research and innovation. Remedial coaching has significantly improved the academic performance of weaker students.

WHO Should Attend?

- Post Graduate Students
- Research Scholars
- Faculty Members
- Early Career Researchers

Day 1
Friday, 24 July 2026

LaTeX from Scratch : Essential Document Formatting for Researchers

9:30AM - 4:30PM

Resource Person :

Mr. Sabeel P K

Assistant Professor
PG Department of Physics
Sullamussalam Science College
(Autonomous), Areekode

Day 2
Saturday, 25 July 2026

Ethical Challenges in Research and Scholarly Publishing

9:30AM - 12:30PM

Resource Person :

Dr. Nasirudheen T

Assistant Librarian
Research Desk, CHMK Library
University of Calicut

Scientific Approach to Research Paper Preparation

2:00PM - 4:00PM

Resource Person :

Dr. Aljinu Khadar K V

Assistant Professor
Department of Computer Science
University of Calicut

SULLORE

SULLAM. LEARN. ORGANIZE. REIMAGINE. EMBRACE

Why SULLORE exists

SULLORE is built to take big ideas into places where curiosity is raw, questions are honest, and impact lasts longer than applause.

This is not a college fest.

This is a public-facing innovation forum rooted in Malabar, open to students, founders, professionals, creators, and thinkers who care about the future.

Why we're inviting you

We're not inviting speakers to fill slots.

We're inviting voices that can shift how people think.

At SULLORE, you don't talk at an audience.

You talk with one.

Your ideas land with:

- Students hungry for direction
- Young founders building from scratch
- Community members who rarely get access to innovation spaces
- Educators, professionals, and local leaders

What this really means is impact that travels beyond the stage.

What makes this Audience Different

- Tier-3 region. Tier-1 curiosity.
- A crowd that listens, questions, and engages
- Fewer filters, less noise, more attention
- Conversations that continue after the mic is off

If you care about real connection over polished applause, this room is for you.

Your presence creates

- Visibility with meaning

Your voice reaches an audience that doesn't get many chances like this.

- Credibility that lasts

Being part of SULLORE positions you as someone who invests in ecosystems, not just stages.

- Content that lives on

Your session will be documented and amplified through our media channels.

- Direct engagement

Panels, interactions, informal conversations. No green-room bubble.

What we offer our speakers

- A chance to give back to a high-potential community
- Be part of the first-ever startup & innovation fest of its kind in Malappuram
- Strong personal and brand visibility without forced promotion
- Exposure to 5,000+ attendees from Malappuram and nearby regions
- Direct access to people from your exact niche
- Meaningful networking with founders, professionals, and creators
- Long-term visibility beyond the event

If this resonates

If you believe ideas should travel.

If you value conversations over monologues.

If you want to be part of something grounded, honest, and forward-looking.

SULLORE is waiting for you.

SULLORE

DABS

SULLORE serves as the ultimate programme where creativity sparks meet technical precision and entrepreneurial skills. We invite you to step beyond the traditional classroom and immerse yourself in a landscape of games, ideas, innovation and a whole lot of fun. This is more than just an event, it is a platform to sharpen your own skills that will define the future. The stage is set and the technology is ready, now it's your turn to lead the change.

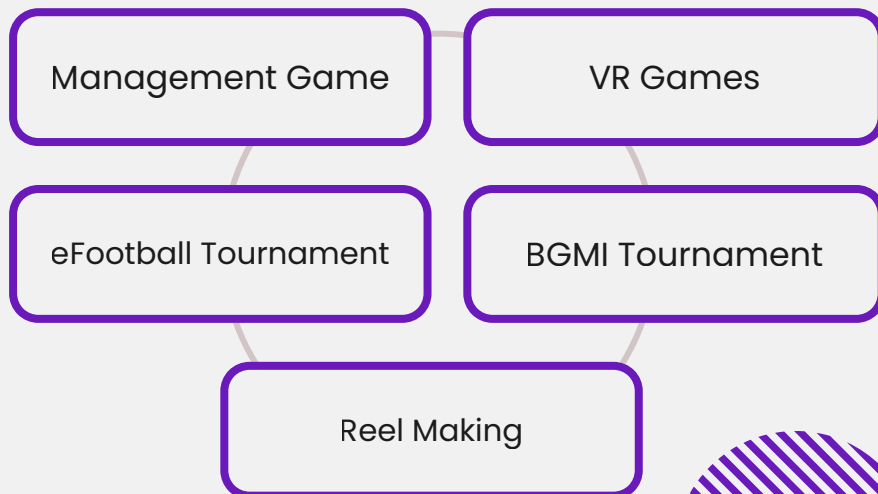

SULLORE is the innovation festival of Sullamussalam Science College. The event brings together students, young innovators, founders, startups, and creators for exhibitions, workshops, competitions, product demos, talent showcases, and cultural experiences.
